

# Ifeoluwase Adeleke

SOFTWARE ENGINEER

## Profile

Full-stack engineer with over 2years work experience able to build responsive web applications from the ground up. Proficient with HTML5, CSS3, and JavaScript. Hands on experience with CSS frameworks like Bootstrap and Materialize. I have experience in building responsive apps with JavaScript frameworks like EJS, React.js, Next.js and quality REST APIs with Nodejs and Express.js. I also write Technical Articles on different programming topics on Medium.

## Employment History

### Junior Software Engineer, Ancla Technologies, Yaba, Lagos

APRIL 2022 — NOVEMBER 2022

- Led weekly meetings with clients and in-house staff to go over websites progress reports.
- Managed Obade web app and built new features within time constraints that currently serve over 1000 users.
- Collaborated to create strategic initiatives to design, code, and test solutions.
- Effectively coded software changes and alterations based on specific design specifications.
- Tested, deployed, and maintained web applications.
- Worked with React Native to convert figma designs to mobile apps to create new software updates for VetroPay.
